

## Early Career Award in Chemical Ecology

The Early Career Award in Chemical Ecology will honor an emerging leader in chemical ecology and honor cutting-edge research that will influence the future direction of the field of Chemical Ecology. It is annually awarded by the ISCE, starting 2014. The award is limited to persons who have finished their Ph.D. studies no longer ago than 8 years (deadline = end of nomination period). The recipient must deliver a plenary lecture at the annual ISCE meeting in the year of the award application. The conference fee, economy flight, and hotel expenses of the recipient of the Award are paid by the society. The nominations will be reviewed by the entire ISCE Executive Committee. Note that previous, unsuccessful nominations must be re-nominated to be considered for the award.

An applicant can nominate herself/himself or he/she can be nominated by an ISCE member. The nomination requires the following documents:

- A nomination letter explaining why the nominee should be recognized for the award, stressing their current independent cutting-edge research. This letter should be supported with one to three support letters from ISCE members.
- A Curriculum Vitae providing the current position, year of receipt of Ph.D. and a full list of publications. The nominee must be a member of the ISCE at least since 2013.
- Reprints of the three most important papers as PDF files.

Please submit all parts of the packet in electronic format (including supporting letters) to ISCE President
