

Graduate Student Positions (Master's or Doctoral)  
Texas A&M University, College Station, TX, United States

**Application Deadline:** January 1, 2019 for a summer or fall 2019 start date

**Start date:** summer or fall 2019

**Website:** <https://entomology.tamu.edu/future-students/graduate-students/>

---

#### Qualifications

---

Successful applicants will have completed a bachelor's degree by the desired start date and have taken the GRE and TOEFL exams (if applicable). Preference will be given to students with previous research experience and a satisfactory academic record.

---

#### Description

---

The Helms Lab in the Department of Entomology at Texas A&M University is recruiting doctoral and master's students interested in chemical ecology and plant-insect interactions. Potential research topics include, but are not limited to chemical communication, plant and insect defense strategies, multi-trophic interactions, and belowground chemical ecology.

---

#### Application Materials

---

Interested students should contact Anjel Helms to discuss research interests before applying to the Department of Entomology Graduate Program. More information about the program, including deadlines, can be found here: <https://entomology.tamu.edu/future-students/graduate-students/>

Potential Ph.D. students within the United States are strongly encouraged to apply for the Entomology Travel Grant for an opportunity to visit the Entomology Department and Bryan/College Station area. More information can be found here: <https://entomology.tamu.edu/future-students/graduate-students/prospective-ph-d-travel-grant-information/>

If interested, please send a copy of your CV (including GPA, GRE scores, and names of references) and a statement of your research interests to Anjel Helms at [amhelms@tamu.edu](mailto:amhelms@tamu.edu). Review of materials will begin immediately and continue until the application deadlines for positions beginning in summer or fall of 2019.

Submit applications and further questions to:
